SUMMARY

Currently enrolled in the Hexlet "Frontend Developer" course, expected to complete in 2024, and a holder of a Skillup "Frontend Developer" certificate. Although I lack formal commercial experience, I have honed my skills through various personal projects. I am proficient in HTML/CSS, JavaScript, React. My aim is to grow, explore new technologies, and contribute significantly to a team.

Living in Vietnam, I enjoy taking on new challenges and exploring fresh opportunities. Solving complex problems is deeply satisfying to me, as is my passion for learning, mastering new tools, and optimizing familiar processes.

Beyond IT, I'm drawn to active pursuits like hiking, trekking, exploring mountains, surfing, and singing.

EDUCATION

Hexlet

Course "frontend-developer"
February 2023 - To present

Skillup

Course "frontend-developer"
September 2022 - January 2023

Dnipro University of Technology

Bachelor's degree in Marketing
September 2016 - June 2019

SKILLS

Hard Skills:

- Programming languages: JavaScript(ES6+), React
- Web technologies:
HTML5 / CSS / SCSS - HTTP
- Debugging and Testing Tools:
Automatic testing (Jest)
- Version control systems:
Git / Github / GitHub Actions
- Development platform and tools:
Visual Studio Code
- Operating systems:
Linux, macOS

Soft Skills:

- Learning ability (Quickly adapted to using new JavaScript libraries for project implementation.)
- Responsibility (Took responsibility for the 'Difference Calculator' project, ensuring accuracy and reliability in file comparison.)
- Communication skills
- Teamwork
- Time management (Successfully balanced intensive training in the Hexlet course with working on personal projects and part-time jobs during my studies.)

PROFESSIONAL EXPERIENCE

Marketing specialist

Polix Group | July 2019 - February 2022

Polix Group is a leading manufacturer and importer of disposable products, and consumable materials for specialists in the beauty, medicine, and service industries.

Responsibilities:

- Managing an online store (updating products, their photos, and prices).
- Monitoring competitors' products and pricing policies.
- Preparing for and participating in exhibitions.
- Developing a pricing strategy for products.
- Creating a photo database of products together with a graphic designer.
- Verifying the accuracy of information on product labels.

Achievements:

- Created a registry of product labels with more than 500 entries, which facilitated easier searching, verification, and monitoring of label accuracy.
- Together with the designer, improved the product photo database; over 600 product photographs were added and organized, significantly easing the work of sales managers in sending photos to clients.

PROJECT DESCRIPTIONS

Brain Games

Set of five console games built on the principle of popular mobile brain training applications.

Tools used: JavaScript, npm, readline-sync library, Code Climate

Difference calculator

The program is designed to compare and identify differences between two files.

Tools used: JavaScript, npm, Commander library, Lodash library, Jest framework, Code Climate
