Summary

Hi there I'm Oksana. I'm a Junior frontend developer

Currently enrolled in the Hexlet "frontend-developer" course, due for completion in 2024, and a holder of a Skillup "frontend-developer" certificate, I lack formal commercial experience but have honed my skills through various personal projects. Proficient in HTML/CSS, JavaScript, Jest, Git, and web development, my aim is to become a Frontend Developer, grow, explore new technologies, and contribute significantly to a team.

Skills

Hard Skills

1. Programming languages: - JavaScript(ES6+),
2. Web technologies: - HTML5 / CSS / SCSS - HTTP
3. Debugging and Testing Tools: - Automatic testing (Jest)
4. Version control systems - Git / Github / GitHub Actions
5. Development platform and tools - Visual Studio Code
6. Operating systems - Linux, macOS

Soft Skills

- Learning ability (Quickly adapted to using new JavaScript libraries for project implementation.)
- Responsibility (Took responsibility for the 'Difference Calculator' project, ensuring accuracy and reliability in file comparison.)
- Communication skills
- Teamwork
- Time management (Successfully balanced intensive training in the Hexlet course with working on personal projects and part-time jobs during my studies.)

Project descriptions

1. [Brain Games](#)
Set of five console games built on the principle of popular mobile brain training applications.
Tools used: JavaScript, npm, readline-sync library, Code Climate
2. [Difference calculator](#)
The program is designed to compare and identify differences between two files.
Tools used: JavaScript, npm, Commander library, Lodash library, Jest framework, Code Climate

Expiriens

Marketing specialist, Polix Group

Polix Group is a leading manufacturer and importer of disposable products, and consumable materials for specialists in the beauty, medicine, and service industries.

July 2019 - February 2022

Responsibilities:

Managing an online store (updating products, their photos, and prices).

Monitoring competitors' products and pricing policies.

Preparing for and participating in exhibitions.

Developing a pricing strategy for products.

Creating a photo database of products together with a graphic designer.

Verifying the accuracy of information on product labels.

Achievements:

Created a registry of product labels with more than 500 entries, which facilitated easier searching, verification, and monitoring of label accuracy.

Together with the designer, improved the product photo database; over 600 product photographs were added and organized, significantly easing the work of sales managers in sending photos to clients.

Education

Hexlet. Course "frontend-developer".

February 2023 - Current

Skillup. Course "frontend-developer".

September 2022 - January 2023

Bachelor's degree in Marketing

September 2016 - June 2019

About me

Ready

Toronto

I enjoy exploring new things and setting new challenges for myself. Solving complex problems brings me satisfaction, as does the ability and desire to learn, master new tools, and optimize familiar processes. Outside of IT, I am passionate about active leisure, hiking, trekking, mountains, and surfing.
